

COLUMN table and workstation system

The monolith visual language is achieved by using mild steel tube legs, landing itself perfectly to more organically shaped configurations, where required. A somewhat classical leg style allows a seamless integration into the built environment, as well as providing ample knee room due to the generous top overhang allowances.

Lead time: 4 weeks

Origin: MTO variant - Australia, Stock variant - legs made in China, tops made in Australia

Unique 90/60 joining plates allow for irregular-shaped tops to be well supported through the entire area.
